BUSINESS OPPORTUNITY

CAMPBELL MARITIME INC.

A USA BASED COMPANY The owners of Campbell Maritime hereby offer the company, with all assets, including tugs, support equipment, client base, and existing contracts, for sale as a turn-key package.

Having continuously operated the company since the late 90's, the owners would like to find a successor to assume ownership and operation of the business so they can move onto other ventures.

Campbell Maritime is a local/regional tow company serving Seattle and the Puget Sound with 3 tugs in the 300-500 horsepower range, specializing in ship & barge assist, escort services, and the movement of project cargo. The company is based on Lake Union in Seattle, and the current dock/office space may be available to the new owner.

If you're looking to expand, or someone who has always wanted a working tug outfit but hasn't found the right opportunity, this is it!

All equipment, information, and clients are included in the sale to get you started right. Additionally, the owners are willing to stay on and assist the new owner with their local knowledge and skills as long as necessary to make the transition a success.

This is a great opportunity for the right individual to take over a well-respected, capable tow company based in the heart of downtown Seattle on historic Lake Union-this is your new front-row seat to all the action! \$750,000 (USD) Reduced to \$599,000 (USD). OFFERS LOOKED AT!!!

DUNLAP INDUSTRIAL HARDWARE
425-339-2666 • 1-800-962-6723**The JFK Emergency Towline Storage Reel.** The JFK emergency towing reel is a simple and proven means of storing the emergency tow line. When the pick-up line is pulled, the emergency tow line runs completely off of the reel and engages with the auxiliary tow chain, allowing you to continue the tow and complete your voyage. The storage reel is designed and engineered to survive the salt water elements and to provide years of reliable service with its large wire capacity, stainless steel tension brake, bolt-down mount, and protective cover. With the bolt-down mounting design this system can be simply switched from barge to barge or stored in your warehouse for the next voyage.**Not Just for Barges...**

THIS SYSTEM CAN BE UTILIZED ON SHIPS, FERRIES, CRUISE SHIPS, TANKERS AND MUCH, MUCH MORE.

Standard Model Capacity: 1,600' of 1 ¾" / 1,200' of 2" / 900' of 2 ¼"

Can be custom built to meet your needs!

JKF System Features: Large capacity tow wire, Designed to retrieve and then continue tow, Can be used with wire or spectra line, Reusable time and time again, Wire is lubed and covered, Can be mounted above or below deck.**For more information, options and prices, please contact: J.K. Fabrication, Inc.,** 3101 West Commodore Way #3, Seattle, WA 98199, phone: 206-297-7400, fax: 206-297-1300,
